THIS IS UNEVALUATED INFORMATION

1. Soviet tank and motorized infantry units are assembling in the Galebusch - Grevesmuhlen area. Tank units are stationed in Botelsdorf, Webersfelde, Wuestenmark and Sievershagen (all south of Grevesmuhlen). A heavy tank unit is located in a small wooded area between the villages of Wessnitz and Boerzow (on the Grevesmuhlen - Schoenberg railway). 200 tanks were observed. They were low-set with a streamlined upper structure and were armed with one 12.5 cm. long-barrelled gun. These tanks, of approximately 50 tons, are fit for any terrain (gelaendegaengig) and have armor-protected tracks (Kettenschutz Panzerung).
2. Soviet motorized troop units are stationed in a camp between Friedrichthal, Gr. Brustz, Steinfeld and Warnitz, west of Neumuehlen Lake (near Schwerin), on the Schwerin - Gadebusch railway.
3. Grenade-thrower detachments which left the Soviet Union on 26 July 1950, are now located between Kuehlen, Holdorf and Buchholz, near Kuezer Lake, not far from the main road Bruehl-Schwerin.
4. A military field railway running west from Schwaan (south of Rostock) via Letschow and Gr. Belitz to Juergenshagen, was completed on 29 July 1950. Fuel is carried by this railway to a camp at Juergenshagen, where there is a fuel depot. Fuel depots in the Rostock - Buetsow - Neukloster area (in addition to that at Juergenshagen) are located at Wahrstorf, Heiligenhagen and Neu-Poonstorf, and at Ravensruh, on the Neukloster - Hornstorf - Wismar railway.
5. A military airfield is under construction west of the Rugensee between Alt-Meteln and Wendelstorf (railway station, Rugensee-Luebstorff, north of Schwerin). The airfield is equipped with one runway, crew's quarters and store-rooms.
